

I Know

Skrape

I'm not impressed out but it might seem to look that way to you

I can impress I can try to come off cool

And if you drag me into feeling like I'm tired of you

I wouldn't care even though it might seem to look that wayDon't tell me now I know

I'll figure it out on my ownI'm not in check but I don't show what I say to you

I never flinch never care I know I'm cool

And if you drag me into feeling like I'm tired of you

I wouldn't care even though your in front of meDon't tell me now I know

I'll figure it out on my ownDon't you think you know you might

This offering my friends invite

Go ahead and face what's mine

The end of you I wash the slimeDon't tell me now I know

I'll figure it out on my ownDon't you think you could

Don't you think you might
