

# Protest

## Electro Hippies

If you dont protest, youve got no excuse,  
asking to be stood on and inviting abuse,  
you cant stand by and hope dreams come true,  
if you think thats how it works, then youre a fool too. Youve got a voice, make sure its heard,  
before apathy removes your final word,  
you cant sit and complain if youre not going to act,  
we must fight, and thats a fact.
