3D

JLS

please put on your 3d glasses nowI wanna love in 3d, I'm gonna turn you on just like a tv
I'll have your body moving till you're popping out the screen
I'll make your whole world transform in 3d, d, d, d, d.
You turn up the lights, getting ready for the show
The look in your eyes telling me you wanna go
Just let the music, just let he music take control
Usually love is nothing more than digital
We turn it around and take it 3 dimensional
Into the future, into the future, still unknown
So put your hands in the air and feel the place come to life
Let me hear you say yeah, gonna do it times 3 tonight
I wanna love in 3d, I'm gonna turn you on just like a tv
I'll have your body moving till you're popping out the screen
I'll make your whole world transform in 3d, d, d, d, d
I wanna love in 3d, I'm gonna turn you on just like a tv
I'll have your body moving till you're popping out the screen
I'll make your whole world transform in 3d, d, d, d, d
1, 2, 3d, come along with me, hey
3, 3, 3, 3d forget reality
1, 2, 3d, come along with me, hey
3, 3, 3, 3d forget reality
Colors are flying, red, yellow, blue and the green
It's like we jumped out the pages of a magazine
Into the matrix, we gonna take this, come with me
So put your hands in the air and feel the place come to life, whoa
Let me hear your say yeah, gonna do it times 3 tonight
I wanna love in 3d, I'm gonna turn you on just like a tv
I'll have your body moving till you're popping out the screen
I'll make your whole world transform in 3d, d, d, d, d
I wanna love in 3d, I'm gonna turn you on just like a tv
I'll have your body moving till you're popping out the screen
I'll make your whole world transform in 3d, d, d, d, d
1, 2, 3d, come along with me, hey
3, 3, 3, 3d forget reality
1, 2, 3d, come along with me, hey
3, 3, 3, 3d forget reality
I wanna love in 3d, I'm gonna turn you on just like a tv
I'll have your body moving till you're popping out the screen
I'll make your whole world transform in 3d, d, d, d, d

1, 2, 3d, come along with me, hey
3, 3, 3, 3d forget reality
1, 2, 3d, come along with me, hey
3, 3, 3, 3d forget reality.
