Look at Mine

Jody Miller

If you think her eyes are brighter look at mine
If you think her lips are softer look at mine
If you think her love is stronger don't you hang around much longer
(Stop awhile take a time and get yourself to my place) and look at mine
If you think her clothes are better look at mine
If she writes you nice love letters look at mine
If you think her heart is willing don't you wait to make that kiilling
(Stop awhile take a time and get yourself to my place) and look at mine
Look at mine look at mine look at mine I've got everything you need all the time
If you think her smile is sunshine look at mine
If you think her looks are so fine look at mine
If you think her future's better just forget the day you've met her
(Stop awhile take a time and get yourself to my place) and look at mine
[trumpet]
If you think her smile is sunshine...
Hey look at mine look at mine look at mine
Hey look at mine look at mine look at mine
