

Wabi Sabi

The Ting Tings

Wabi sabi get to me, gettin' me out of here
Wabi sabi led to me, led to me, led you near
Oh, I like everything that's wrong with you
And I like everything that you don't do While you're young
While you're young
While you're young
While you're young Yeah, I like everything that's wrong with you
Oh, I like everything that you don't do Wabi sabi holding me, holding me, hold you still
