

A Better Place

Owen Campbell

I'm on the floor honey,
And broken glass and I,
I don't like the view anymore,
I find my feet returning,
To pick and dreams and I,
Know I can't do it all alone,
I take the reins and I
Make the sunflower,
A glass ago of a green ferar.
I can't dream without you here
Cause my dream is you
You take my hand and walk away
To a better place
A better place
you see that time honey,
were laughin now but I,
I seen it was an awful year,
Runnin' round and I,
Up and down and I,
I was runnin till yesterday,
I stopped to turn and listen,
A loving dream it had me
Turn around.I can't dream without you here,
Cause my dream is you,
You take my hand and walk away,
To a better place.
A better place.mmmmmI can't dream without you here,
Cause my dream is you,
You take my hand and walk away,
To a better place,
A better place.mmmmm
