Korea

The Artichokes

I taste you much better
Off teeth taste
Of white skin on red leather
Check the claws we gotNight time cavity to come in
Downtown pony work your pitchI came to in feathers
Like leaves taste
You rubbed me together
With claws like we gotNight time cavity to come in
Downtown pony work your pitch
Daytime dancer, I'll come inside
Got my teacher now carve your niche[Incomprehensible] is yours
Night time cavity, ahhNight time cavity to come in
Downtown pony work your pitch
Daytime dancer, I'll come inside
Got my teacher now carve your niche
