## The Artichokes

I taste you much better  
Off teeth taste  
Of white skin on red leather  
Check the claws we gotNight time cavity to come in  
Downtown pony work your pitchI came to in feathers  
Like leaves taste  
You rubbed me together  
With claws like we gotNight time cavity to come in  
Downtown pony work your pitch  
Daytime dancer, I'll come inside  
Got my teacher now carve your niche[Incomprehensible] is yours  
Night time cavity, ahhNight time cavity to come in  
Downtown pony work your pitch  
Daytime dancer, I'll come inside  
Got my teacher now carve your niche
