New Generation

New Politics

I met a stranger he had fire in his eyes
Then I met a pretty angel but she was like too dead inside
Then I met a bunch of children with no food to eat and no place to hide
So I tried to get away now but there's nothing in the world that can keep me in the skies
So if you ever happen to bump into to god
Please ask him if he made us all up for fun
Come on
Don't keep me waiting you've got nothing to lose
The world is fading you've got nothing to prove
Finally it all comes crashing down to the earth
Finally we get what we deserve
I met a preacher he had heart but he was blind
Then I met another homeless who sold his soul for less than a dime
So I opened up the papers but there were rats and painted lies
So I looked up to the sky and smiled and realized how small we are
So if you ever happen to bump into to god
Please ask him if he made us all up for fun
Come on
Don't keep me waiting you've got nothing to lose
The world is fading you've got nothing to prove
Finally it all comes crashing down to the earth
Finally we get what we deserve
Pardon my french
This is so ridiculous
I'm a product of God
Still there's poison in my blood
I find it cynical
I think you're critical
We better breakout
Before we blackout
Raise your voice
Don't let them break you down
All depends on what you do
It's a state of mind
Free the youth
Don't let them break you down
All depends on what you do
It's a state of mind
This boxing ring ain't big enough

For the two of us
So hold your ground
(Don't look down)
One wrong move and you'll
Taste the ground
Taste the ground
Oh oh
We Are the new generationg
Oh og
We have to rebuid the nation
Finally finally
We get what we deserve
