

# Dangerous

## Cascada

Don't know anything about you  
So close, just a touch away  
Your love hits me like no other  
They say I'm a true believer  
I know that something's taking over now  
I wanna run but I don't know how  
You've just crossed my border now  
Just to kiss away  
Gimme a break, I'm melting away  
You're so dangerous  
Or is it too late?  
Gotta know what's on your mind  
I'm out of control 'cause you want it all  
You're so dangerous  
My biggest mistake, I'm blinded by your lies  
Dangerous  
Dangerous  
Don't you push it to the limit  
'Cause you know I'm hungry for your touch

No doubt, I wanna be your lover  
They say, just a pretender  
I know something's taking over now  
I wanna run but I don't know how  
You've just crossed my border now  
We're standing face to face  
Gimme a break, I'm melting away  
You're so dangerous  
Or is it too late?  
Gotta know what's on your mind  
I'm out of control 'cause you want it all  
You're so dangerous  
My biggest mistake, I'm blinded by your lies  
Dangerous, dangerous  
I'm out of control 'cause you want it all  
You're so dangerous  
My biggest mistake, I'm blinded by your lies  
Dangerous
