

Sleepless Again

In Flames

Hopeless times approach
Just give into the chaos
Strangely I find comfort here
Impatient and curious of what may come And so the rampage begins
Against the headache I can't win
(Drain me)
Keep me in the dark
I don't want to take part
Prefer to be forever numb Nothing great can come out of this
I'm a hostage to myself
I fear I might collapse on the razor's edge
And I fear I'll realize when it's too late And so the rampage begins
Against the headache I can't win
(Drain me)
Keep me in the dark
I don't want to take part
Prefer to be forever numb Sleepless again
I need to ease my mind
And kill what burns inside
Sleepless again I can't win
(Drain me)
Keep me in the dark
I don't want to take part
Prefer to be forever numb
