You Know I Love You Baby

Mindy Smith

Baby I think you made me drunk with drama
It's the only way to understand the things you do
Neither one 'cause I could always calm the storm
That's raging as a kind that you're inclined toYou know I love you baby
I'd do anything for us
You know I love you baby
Come on, enough's enoughI don't need a come off soul patience
It's been too much time begging you to stay, yeah
Baby, you run from every situation
But God forbid just might not go your wayYou know I love you baby
I'd do anything for us
You know I love you baby
Come on, enough's enoughYou do or you don't
Will or you won't
It's all or it's nothing
There's no more inbetweenIt's a little or a lie
With something all well of
Is and all it is
I can't take much more of thisYou know I love you baby
I'd do anything for you
I love you baby
Even with all you put me throughYou know I love you baby
I'd do anything for us
You know I love you baby
Come on, enough's enough, enough's inYou know I love you
I'd do anything for you
