

Weekends

Urban Cone

I see the colours
That I wanted painted
Can you feel it
I can feel it
I see the posters
That I once stood for
Can you feel it
I can feel it
Do your remember
We used to build castlesI used to feel it
You used to feel it
On the weekends X2I see the people
That I once cared for
Can you feel it
I can feel it
This is the city
The city where I left you
Can you feel it
I can feel it
Do your remember
We used to build castlesI used to feel it
You used to feel it
On the weekends X2On the weekends
Can you feel it there inside X4On the weekends
Can you feel it there inside X4
