Morcheeba

Things have changed this time around
I'm on the rocks and looking down
And I can't see for all the darkness 'round here You're in Spain and you're walking free
I'm inside without the key, yeah
Feeling sick and angry towards you Locked away, I'm going mad
I'm a fool, I'm so sad
I'm a fool, I've been had We planned a job and you let me down
You made a run, I hit the ground
Can't trust nobody, nobody no more, no more, no You're in Spain and you're walking free
I'm inside without the key, yeah
Feeling sick, sick and angry Locked away, I'm going mad
I'm a fool, I'm so sad
I'm a fool, I've been had Things have changed this time around
I'm on the rocks and looking down
I can't see for all the darkness 'round here
