Somthing's Missing

The Internet

It's a full tank in the getaway, getaway
So before I break your heart, you should get the engine started
There's nothing like a nice drive in the Summertime
Sunshine with the groove goin' to help you move on
So get a move on, get your mood right to start a new life
And you're wonderin' what to do and where to go
Tell me not to do it babe, I don't feel the same without you anymoreDon't get caught up lovin' me
I know it don't make sense you're perfect on paper baby
But something's missing
Don't get caught up lovin' me
Girl I'm no good for you
It has nothing to do because it's just another seesaw
I don't wanna be without you babeI just think I'm way too young to fall in love
Some of the times I guess I'm in another season
I'mma be trying to find someone like youDon't get caught up lovin' me
Don't get caught up lovin' meI just think I'm way too young to fall in love
Some of the times I get another season
I'mma be trying to find someone like youShe always wanna get down
When no one's was around
She always wanna get down
When no one's was aroundShe always wanna get down
When no one's was around
She always wanna get down
When no one's was aroundShe always wanna get down
When no one's was around
She always wanna get down
When no one's was around
