

Dead Honey

Tennis System

Did you see the way she looked at me
She's buzzing around like a honeybee
And walking away
It kills me every time And did you say that you saw me smile
Well that's just the way
I show how she's on my mind
And walking away
It kills me every time And I can't go back to that
'Cause what would that show? Dead honey [x3]
Honey
Won't you please
Call me, honey
