

# Hey Lady

Doris Duke

[Mike Posner] Hey lady  
If you've been looking for love in all the wrong places  
Me too  
Hey lady  
If you've been telling yourself just to be patient  
Me too  
Just because I stand on the stage now  
Just because I'm ill in the booth  
Doesn't mean that I can't really love you  
If you listen then I'll tell you the truth  
I'm getting kinda tired of  
Well, I spare you the details  
But I got a little crazy with the females  
The last whore, okay  
And the one before but I'm tryna tell you  
I don't think I want that no more, I guess  
At least you know that I've got the experience  
So when you're cool with it  
You know I know what to do with it  
Everything that you'd expected and more  
Sex in the shower, on the bed, then sex on the floor  
Rug burns on my knees, scratches on my back  
You put those on my body to remind me to come back (hehehe)  
And for some reasons I do  
I even eat it but that's just a secret between me and you  
Hey lady  
If you've been looking for love in all the wrong places  
Me too  
Hey lady  
If you've been telling yourself just to be patient  
Me too  
[Twista] Twista... Let's take it back to the basics  
  
Looking for love in all the wrong places  
All up in the party sippin' on ciroc  
Was coming after women when I was  
Spending big faces  
Every night I'm in the zone  
Doing what the fuck I wanna' do

In the hotel lobby like you and you and you  
Until I met you  
Make Twist, get the urge  
Got it with you because I was sick with the words  
Looking at you cause the picture was per-fect  
Now the other chicks kicked to the curb  
Sip cause I gotta' trip off the way  
I was looking everywhere for love and I found it right here  
I'm Twista, lemme' get to know ya  
Here is Mike Posner lemme' make it quite clear  
You the only one that I wanna' be with  
Tell everybody else that they can holla back  
But all the other woman I was with I just splurged  
But she the only one that bring the dollar back  
Her sex so cold, got it froze  
And its on a real, she the one I chose  
Lovin her so all I wanna' say is M Pose  
Tell her how you feel  
[Mike Posner]Hey lady  
If you've been looking for love in all the wrong places  
Me too  
Hey lady  
If you've been telling yourself just to be patient  
Me too  
Hey lady  
If you've been looking for love, looking looking for love  
Me too  
If you've been telling yourself just to be patient  
Me too
