

Anything We Want

Fiona Apple

My cheeks were reflecting the longest wavelength
My fan was folded up and grazing my forehead
And I kept touching my neck to guide your eye to where I wanted
You to kiss when we find some time alone

My scars were reflecting the mist in your headlights
I looked like a neon zebra shaking rain off of stripes

And the rivulets had you riveted to the places that I wanted you to
Kiss me when we find some time alone

And then we can do anything we want
And then we can do anything we want
And then we can do anything we want

We started out sippin' the water
And now we try to swallow the wave
And we try not to let those bastards get us down

Oh, we don't worry anymore
Cuz we know when the guff comes we get brave
After all look around it's happening it's happening
It's happening now

Let's pretend we're eight years old playing hooky
I'll draw on the wall and you can play UFC rookie
Then we'll grow up and take our clothes off
And you remind me that I wanted you to kiss me
When we find some time alone

And then we can do anything we want
And then we can do anything we want
And then we can do anything we want
And then we can do anything we want
