I Fall Down

[Girl Next Door](#)

(green/lincoln)All I can remember is
How proud you were of me
Don't listen to them
Someday they will eat their words
You'll see
But you forgot to tell me
How painful this would be
And you forgot to tell me
How to get back up on my feet again
All I can remember is
My one track mind screaming "up!"
There was no such thing
As who, what, where, and why
I'm gonna go
But you forgot to tell me
How painful this would be
And you forgot to tell me
How to get back up on my feet again
Your forgot to tell me
How long this would take
And you forgot to tell me
I'd be regretting a lot of mistakes
When I fall down
When I fall down
