

# United

## Shaun Canon

Vs 1

When will the future begin  
When does it end?  
When will the dark side relent  
Is losing our fate again  
When will the day end the night  
This isn't right  
When will we get back our sight  
Chorus  
They will try and fight us  
They will try and bring us down  
I wake with a sword in my hand  
I won't let them take me again  
If they can divide us  
They will burn us all to the ground  
There's a will they don't understand  
We're here and we're taking a stand

Vs 2

Why was the world blown apart  
We've travelled so far  
Why do we whisper in the dark  
Do we fear who we are  
Why does the Earth have to burn  
We never learn  
When will the good get a turn  
When will the sun return  
Chorus  
They will try and fight us  
They will try and bring us down  
I wake with a sword in my hand  
I won't let them take me again  
If they can divide us  
They will burn us all to the ground  
There's a will they don't understand  
We're here and we're taking a stand

Bridge

Fires in the sky  
Too many people die  
Everyone's just trying to survive  
Keep on fighting  
The world is on the line  
There's nowhere left to hide  
How are we gonna stay alive  
Chorus  
They will try and fight us  
They will try and bring us down

If we can riot  
We can turn this around I wake with a sword in my hand  
I won't let them take me again  
United - we can turn this around  
There's a will they don't understand  
We're here and we're taking a stand United - we can bring them down  
United - we can turn this around
