

# Separated

## Near Miss

She can't love you anymore  
'Coz you killed her once before  
And everything that you trust separated  
Soon your world starts to fall  
Then all your luck you lost it all  
Through this time you went your way  
Everything changes day by day  
Free yourself from the pain  
Live your life you jumped the train  
I never wanted to see you fall  
I always wanted to please you all  
You can't love her it's the end  
'Coz she'll kill you once again  
And everything that you loved separated  
Soon you'll realize it's the time  
Find yourself when hearts collide  
And maybe things weren't meant  
A life alone is a life well spent  
Free yourself from the pain  
Live your life you jumped the train  
I never wanted to see you fall  
I always wanted to please you all  
I never wanted to see you fall  
I always wanted to please you all  
Or see you die again  
I never wanted this to be the end
