Shelter

Hedley

see i could spend forever here and never wanna stop
cause baby you are making my day
dont tell me what it takes my dear to keep you in one spot
im crazy good at finding a way
for all of my days ill be brave ill be stronger
and always keep a hand on my pride
cause if i build it with care it will last that much longer
ill always give you somewhere to hide
ill give you shelter
out of the rain
ill make a good day
out of the pain
and if you got a long way down
ill feel the same
ill give you shelter
out of the rain
so let me kiss you head to toe
upon this tabletop
and baby you can have it your way
ill keep you safe and warm you know im never gunna stop
cause babe i think we'll make it someday
for all of my days
ill be happy to hold you
and always go that extra mile

and if we build it with care
ill be there like i told you
ill always give you reason to smile
ill give you shelter
out of the rain
oh ill make a good day
out of the pain
if you got a long way down
ill feel the same
ill give you shelter
out of the rain
when i get you alone
darling you staisfy me
im always at home

when its you standing by me
dont give us away
baby pelase stay
ill give you shelter
out of the rain
oh ill make a good day
out of the pain
if you got a long way down
ill feel the same
ill give you shelter
out of the rain
