

Be All End All

The Tripwires

Yes, no, yes, no not, another word
You'll know what to do, right
In your face they see it in their face you take it
Make up their minds aggression turns the screws Fight, take your piece and hold it
Make your piece and
Stand up, you know what it means
Wake up, time to live your dreams Down by, law and they can't hold you
Dictate and control you hold onto your ideas
Down by, law and no one owns you
All the shit they've thrown you pay back is a real bitch Nothing's ever easy when you do it yourself
All you can do is try
Life's not, unfair, life's just life
Death not suicide Be all, and you'll be the end all
Life can be a real ball state of mind euphoria
Be all, and you'll be the end all
Life can be a real ball state of mind euphoria Think, on your feet, and stay one step ahead
Break, take your brain and use it
Take their mind and change
An attitude, like you change your shorts Right, in your face they see it
In their face you
Stand up, you know what it means
Wake up, time to live your dreams Down by, law and they can't hold you
Dictate and control you hold onto our ideas
Down by, law and no one owns you
All the shit they've thrown you pay back is a real bitch Nothing's ever easy when you do it yourself
All you can do is try
Life's not unfair, life's just life
Death not suicide Be all, and you'll be the end all
Life can be a real ball state of mind euphoria
Be all, and you'll be the end all
Life can be a real ball state of mind euphoria Always takin', always faking
Ignorance is so frustrating
Always taking, always faking
Ignorance is no way, no way, no way, no way out Be all, and you'll be the end all
Life can be a real ball state of mind euphoria
Be all, and you'll be the end all
Life can be a real ball state of mind euphoria
