All Over

Ne-yo

Take what you want, baby
Take what you want
Take what you want, baby
Take what you want
[Verse 1]Get over there, put you hands in your pockets
Watch me walk over to the door and lock it
Put your eyes anywhere
Let me quickly give a good reason to stare
I walk it back to you sexy and slowly
We can do whatever you want to but only
If you follow my command - stop
I didn't say you could use your hands, ohh
In this game there is a lesson to be taught
The purpose is to explore the power of your very thoughts
And see if you can....
[Chorus]Ooh, touch me with your mind, baby
Think about it so hard, 'til I feel it all over, all over
Feel it all over, all over
Can you move me with your mind, baby?
Think about it so good, 'til I feel it all over, all over
Feel it all over, all over
[Verse 2]Standing at attention, but you're still sitting
Baby, I can tell that the thought of it
Is getting kinda good to ya
Think of everything that you want me to do to ya,
And i'mma do it to ya, ohh
Don't close your eyes or you won't see me dancin'

Watch how I move, baby; is it enhancing
The stimulation you feel?
Tryna move you but you better stay sittin' still, woahhh
[Chorus]Ooh, touch me with your mind, baby
Think about it so hard, 'til I feel it all over, all over
Feel it all over, all over
Can you move me with your mind, baby?
Think about it so good, 'til I feel it all over, all over
Feel it all over, all over
[Bridge]Give it to me, first do it mentally
And the physical's sure to come

Let's do it telekinetic, promise you won't regret it
Baby once thinkin' is done, come take what you want
Take what you want, baby
Take what you want
[Chorus - 2x]Ooh, touch me with your mind, baby
Think about it so hard, 'til I feel it all over (oooh, all over, baby)
Feel it all over, all over
Can you move me with your mind, baby? (with your mind)
Think about it so good, 'til I feel it all over, all over (feel it all over)
Feel it all over, all over (feel it all over, mmm)
Ooh, touch me with your mind, baby (with your mind, mind, mind)
Think about it so hard, 'til I feel it all over, all over
Feel it all over, all over (feel it, feel it all over me)
Can you move me with your mind, baby?
Think about it so good, 'til I feel it all over, all over
Feel it all over, all over (I wanna feel it, all over, mmmm)
