

Fear Nothing (Rich Cooper Rework)

Selah Sue

The things I know
The things I know
Never have the same glow
Passing through your rainbow
The things I feel
Never have the same hold
Till I've finally found you
Now you make me feel like choosing love against doubt
Love against doubt
Oh oh oh 'Cause I want to fade out with you
I would fear nothing
I would fear nothing 'Cause I want to fade out with you
I would fear nothing
I would fear nothing
The things I hear
Never have the same sound
Till I've finally found you
Now you make me feel like choosing love against doubt
Love against doubt
'Cause I want to fade out with you
I would fear nothing
I would fear nothing 'Cause I want to fade out with you
I would fear nothing
I would fear nothing
Things I know
Never have the same glow
passing through your rainbow
Never have the same hold
Till I've finally found you
Till I've finally found you
Things I hear
never have the same sound
Things I hear
never have the same sound
Till I've finally found you
Till I've finally found you
Cause I want to fade out with you
I would fear nothing
I would fear nothing
Cause I want to fade out with you
I would fear nothing
I would fear nothing
