Magnify

The Temperance Movement

you magnify you varnish
I kick up stones I expose I is
so rarified to have this
I gotta nose for a cosy placeyou take your time and I will be there
sing out my soul I will be there for you
you take my time and I will be there
sing out my soul I will be there for youyou terrify you tarnish
I spill out tones I never knew I had
you rectify you ravage
karma commotion on a daily scalecalling all believers
righteous and deceivers alike
makers and the takers
givers and receivers alrightyou sew the seed you harvest
some come like a pest in a vestibule
you caught the feed you witnessed
humiliation on a daily scalecalling all believers
righteous and deceivers alike
makers and the takers
givers and receivers alrightyou take your time and I will be there
sing out my soul I will be there for you
you take my time and I will be there
sing out my soul I will be there for youcalling all believers
righteous and deceivers alike
makers and the takers
givers and receivers alright
