

Rise

Sixx:A.M.

Rise

Get yourselves together

Rise

Stand up and live your life

Rise

Get yourselves together

Rise

Hands up, hands up high

Stand up to the devil slowly rising

Clear your throat now

You can cough for their demise

Speak out, don't let the status quo define you

This is your world, just put the fear back in their eyes

There comes a time when you know there's a problem

Rise up, it's a dawn of a new day

Hands up, it's gonna be okay

Even when they strangle you, get yourselves together

Strike down all that oppose you

Look now, what have they sold you

Even if they anger you, get yourselves together

Rise!

Get yourself together!

Rise!

Stand up and live your life!

Rise!

Get yourselves together!

Wake up, this could be your finest hour

Pick your head up, and get your body off the floor

Hey now, don't be afraid to fight for something

This is your chance, and you can stand for so much more

There comes a time when you know there's a problem

Rise up, it's a dawn of a new day

Hands up, it's gonna be okay

Even when they strangle you, get yourselves together

Strike down all that oppose you
Look now, what have they sold you
Even if they anger you, get yourselves together
Rise!

Rise!
Get yourselves together!
Rise!
Stand up and live your life!

Rise up, it's the dawn of a new day
Hands up, it's gonna be okay
Even when they strangle you, get yourselves together
Strike down all that oppose you
Look now, what have they sold you
Even if they anger you, get yourselves together
Get yourselves together
Rise!
