Stay in My Memory

Bim

I found another point of view
just a dead end avenue
im growing close back to you
just what i dont wanna do
just what i dont wanna do
is to fall in front of you

and you can break and you can mend
for all the wrongs that you defend
you learn the hard way in the end

so stay in my memory
you can hide out there
dont take all my thoughts today
so i can start to begin again
so stay in my memory
you can hide out there
dont take all my thoughts today
so i cant start to begin again

so i dont wanna be left with all this
I plan to be there right by your side
oh it seems like this could be
just a dream with you and me

dont wanna be left with all this
I plan to be there
I plan to be there right by your side

so stay in my memory
you can hide out there
dont take all my thoughts today
so i can start to begin again
so stay in my memory
you can hide out there
dont take all my thoughts today
so i cant start to begin again

and you and i we had the stars
and you and i we had the stars

that you left over and over again
and you and i we had the stars
and you and i we had the stars

i dont wanna be left with all this
I plan to be there right by your side

so stay in my memory
you can hide out there
dont take all my thoughts today
so i can start to begin again
so stay in my memory
you can hide out there
dont take all my thoughts today
so i cant start to begin again
