

# Liquid Skies

**Kai Tracid**

I'm the voice from the planet of Liquid Skies to bring you the message

Come closer to the speakers so I can see the light in your eyes

I'm here to invite you on a journey to a planet of love and freedom

So relax your body and open your mind to the melody transmission

The melody is the only way to a shining planet of liquid skies

Come closer to the speakers so I can see the light in your eyes

C'mon dance with me and feel the rhythm take over your body

Follow me to the planet of liquid skies
