Warrior

Ebony Bones!

Walking on water that's where we are
Running in circles won't get them far
Down in the gulley that's where we'll be
And the time is now take them shackles off meAnd we march march
And we march march
And we march march
Whoa like a warriorLeaving this town gonna do it today
Your lips move but I can't hear what you say
Down in the gulley that's where we'll be
So the time is now so say you get behind meAnd we march march
And we march march
And we march march
Whoa like a warriorAnd we march march
And we march march
And we march march
Whoa like a warriorOh it's coming like a baby tonight
Gonna hum around and screw me and I'm ready to strike
It'll be to late in the morning
They'll be ready tonight
And when they take away what ours
We'll be ready to fightAnd we march march
And we march march
And we march march
Whoa like a warriorAnd we march march
And we march march
And we march march
Whoa like a warriorAnd we march march
And we march march
And we march march
Whoa like a warriorAnd we march march
And we march march
And we march march
Whoa like a warriorWhoa, whoa like a warrior
Whoa, whoa like a warriorLike a warrior
Ooh like a warrior
Walking like a warrior
Ooh like a warriorLike a warrior
Walking like a warrior
Ooh like a warrior

Walking like a warrior
