

# Change in the Weather

## House Rules

Change in the weather, change in the weather  
Somethin's happenin' here  
Change in the weather, change in the weather  
People walkin' round in fear You better duck and run  
Get under cover 'cause the change has come  
Storm warning, and it looks like rain  
Be nothin' left after the hurricane  
This here's a jungle, ain't no lie  
Look at the people, terror in their eyes  
Bad business comin', can't be denied  
They're running with the dogs, afraid to die Change in the weather, change in the weather  
Somethin's happenin' here  
Change in the weather, change in the weather  
People walkin' round in fear You best believe it's true  
The levee's busted, badness comin' through  
Oh no, there ain't no place to hide  
Reach out and pluck you, take you for a ride  
Sea of frustration, take everything in sight  
Won't be no blessing if we make it through the night  
Down on your knees, go ahead and pray  
But every demon has to have his day Change in the weather, change in the weather  
Somethin's happenin' here  
Change in the weather, change in the weather  
People walkin' round in fear, well  
Oh, God High noon, I can't believe my eyes  
Wind is ragin', there's a fire in the sky  
Ground shakin', everything comin' loose  
Run like a coward but it ain't no use  
Edge of the river, it's an ugly scene  
People gettin' pushed, people gettin' mean  
The change is comin' and it's gettin' late  
Ain't no survivin', and there ain't no escape Change in the weather, change in the weather  
Somethin's happenin' here, well  
Change in the weather, change in the weather  
People walkin' round in fear, oh Change in the weather, change in the weather  
Somethin's happenin' here, well  
Change in the weather, change in the weather  
People walkin' round in fear, well  
Oh, no
