

Lions

Tones On Tail

Lions always hit the heights
'Cause they kill, it's always been an easy way out
Lions always hit the heights
'Cause they kill, it's always been an easy way out
After a couple of drinks I think straight
Tears of joy sort the little girl out
Something you always wanted
And curvy Lorraine always leads the way
Admitting her love, it drips and drips
Something you always wanted
Gini, Gini, look at me, Gini
I let the stare that tries to cripple you
Slide down my back
Gini, Gini, speak to me, Gini
I let the words they shove in front of you
Crawl right back
Lions always hit the heights
'Cause they kill, it's always been an easy way out
Lions always hit the heights
'Cause they kill, it's always been an easy way out
'Cause we take this world by storm
We don't look back
Let the stare that tries to cripple you
Slide down my back
'Cause the wheels keep us far apart
We can't look back
Let the words they shove in front of you
Crawl right back
Lions always hit the heights
'Cause they kill, it's always been an easy way out
Lions always hit the heights
'Cause they kill, it's always been an easy way out
Lions always hit the heights
'Cause they kill, it's always been an easy way out
Lions always hit the heights
'Cause they kill, it's always been an easy way out
'Cause they kill, it's always been an easy way out
