

# I've Had It

## Black Flag

I can't go to work  
The boss is a jerk  
I ain't got time for this school  
The fuckers are fools  
I'm going to...explode  
I've had it! I lie around with the tv on  
I don't do nothin', I just hang around  
Waitin' for your call  
But I don't know where to fall  
I'm going to...explode  
I've had it! It's no use  
I can't take no more abuse  
I'm tired of the fuckin' lines  
I'm losing my mind  
I'm going to...explode  
I've had it! Killin' all your dreams  
Really who remembers?  
I play guitar for my car  
And I won't get very far  
I'm going to...explode
