Outside

Jim Verraros

You wanted to break me
You thought you should make me understand
And your words, they cut so deep
'Cause you won't let me be who I amYou took somethin' away from me
And gave me an empty space all aloneDid you know that you pushed me to the outside?
Did you know that you cut me on the inside?
If you could only read my mind, you'd see you made me feel
Alone on the inside, alone on the outsideYou thought you could break me
You all in circles and me without walls
With your pointed fingers and stories made up
And me pretendin' it didn't hurt at allYou took somethin' away from me
And made me so used to bein' aloneDid you know that you pushed me to the outside?
Did you know that you cut me on the inside?
If you could only read my mind, you'd see you made me feel
Alone on the inside, alone on the outsideSo where did you go, where are you now?
Where are you now that I've got my crowd?
Where are your so called friends to help you take a shot?
What I did to you, I'll never knowAnd what you did to me, I'll never show
Now you know how it feels to be all aloneDid you know that you pushed me to the outside?
Did you know that you cut me on the inside?
If you could only read my mind, you'd see you made me feel
Alone on the inside, alone on the outsideWhere did you go, where are you now?
Where are you now that I've got my crowd?
Where are your so called friends to help you take a shot?
If you could only read my mind, you'd see you made me feelAlone on the inside, alone on the outside
Alone on the inside, alone on the outside
Alone on the inside, alone on the outside
