People Gonna Talk

The Box Tops

Please don't cry my baby
Can't nobody ever come between us, no uh
We got somethin', something special, yeah
Neighbors on our street talking 'bout our thing
Messin', messin' our business
Pay no attention baby, hold your little head up high nowPeople gonna talk, people gonna hate us
People gonna talk and ooh
People gonna be people and I tell you people they just gotta talkOoh, don't worry baby, it's gonna be all right
Can't nobody ever bring us down now
We got it baby, we got the real real thing
The way you walk, Ill tell you sure is nice
It makes 'em nervous just to watch you walk, baby
Keep on struttin' honey, hold your little head up high nowPeople gonna talk, people gonna stare
People gonna balk and ooh
People gonna be people and I tell you people they just gotta talkDon't you let them get you down now
Don't you worry about a dog-gone thing
People just naturally gonna talk
About a girl who's got it, got everything
And baby, baby, baby, youve got itUh people gonna talk, people gonna frown
People gonna talk and ooh put us down
People gonna be people and I tell you people they just gotta talkSo let 'em talk, huh!
People just naturally gonna talk
But we got to keep on tryin'
But we got to keep on tryin'
But we got to keep on tryin', yeah
It's so hard to live in this dog-gone city, huh
It's a city without pity
But we got to keep on tryin'
We got to keep on tryin'
Oh let 'em talkTalk ooh
Talking about a girl, ooh
Talking about a girl whos got it
Talking about a girl whos got it
Talking about a girl whos got it
Talking about a girl whos got it
Talking about a girl whos got it
Talking about a girl whos got it
Talking about a girl
