

# Dry Your Eyes

## Texas

It's been so long  
It's been a year since you've been here  
You're looking good  
Let's snatch a tune and have a beer  
We'll have a heart to heart  
There's talking to be done  
No teardrops from the start  
We've only just begun  
Oh darling, please  
You want the one  
But you can never let him know  
That it's been hard  
In time you'll learn to let it go  
You can't keep hanging on  
You're feeling like you can't go home  
I know your mind's made up  
Though it feels as if it's come undone  
Oh darling, please  
Oh darling, please  
It's just emotions that are  
Running down inside your head  
Yeah, we could talk on by  
What's to left to say we haven't said  
Oh darling, please  
Oh darling, please
