

# The Pledge (remix)

## Ja Rule

There's no me  
In the beginnin', it was me, Nas  
(Blastin', I'm blastin')  
I stood alone but now  
(Ashanti)  
Don't you know that I will never leave?  
Murder I.N.C. y'all  
It's Murhhh! Nigga, ha ha!  
It's over now, y'all know that right?  
(Irv Gotti!)  
I'll Will baby  
It's Murdah, for life  
My enemies want sorta the same respect, I was born with  
Godson, tatted on my chest it's permanent  
The rap Albert Anastasia, you cowards  
Y'all want the crown from the black power man of Asia  
Snap out your dreams and prayers of takin' a king's paper  
Ask another rapper how it feels to lose his whole gangsta  
(How it feel?)  
You're a no namesta, ya little mans is no threat  
You make me upset I might stank ya  
(Blastin')  
Inc. is the Murdah, I'll Will merger let my cash  
Make sex with yo' cash, it can't hurt us  
Phones ringing off the hook, Bush and Bloomberg callin' me constant  
Streets wanna know the cause of that gossip  
Nas is Lord of the projects 'til the coffins drop  
In the ocean like a Amistad slave overboat when  
It's a new day ya should be scared, I'm back with Stoute  
South side, Queens bridge, the hood's in here  
There's no me without you  
(Uh, talk to me, there's no me y'all)  
I can't be without you  
(I.N.C. I'll will now)  
Don't you know that I will never leave  
(Talk to me now)  
Leave you  
(It's no me, y'all)  
All I need need is you

(I.N.C.)

(Talk to me now)  
I shall not fear no man but God  
Though I walk through the valley of death  
If I should die before I wake  
It's Murdah!  
It's Murdah, for life
