

About You

Mandalay

I counted down
Just like you did before you said
It's too short how long I said
Is too short
Who's to blame I contemplate if it's true
I'm born to remain star-crossed seems
He couldn't be respectable
Discreet And if I found
What she said was true
What she said about you
What she said trust you
I should have known
When you said that you'd choose me All that I want
Is to see some truth reflected
And to learn somehow
And to be strong somehow
In the state of mind
I'm in And if I found
What she said was true
What she said about you
What she said trust you
I should have known
When you said that you'd choose me Seperate stay strong
Seperate be bold
Seperate be brave
Seperate you'll grow
Seperate be brave
Seperate stay And if I found
What she said was true
What she said about you
What she said trust you
I should have known
When you said that you'd choose me.
