About You

Mandalay

I counted down

Just like you did before you said

It's too short how long I said

Is too short

Who's to blameI contemplate if it's true

I'm born to remain star-crossed seems

He couldn't be respectable

DiscreetAnd if I found

What she said was true

What she said about you

What she said trust you

I should have known

When you said that you'd choose meAll that I want

Is to see some truth reflected

And to learn somehow

And to be strong somehow

In the state of mind

I'm inAnd if I found

What she said was true

What she said about you

What she said trust you

I should have known

When you said that you'd choose meSeperate stay strong

Seperate be bold

Seperate be brave

Seperate you'll grow

Seperate be brave

Seperate stayAnd if I found

What she said was true

What she said about you

What she said trust you

I should have known

When you said that you'd choose me.
