Live Those Days Tonight

Friendly Fires

Born too late to feel the golden age
Missed the rush, the lights of better days
You cut me down to size with wise words and turn around
Can I feel, can I touch, can I hold the things you had?
Don't hold back, don't hold back, don't hold back
Don't hold back, don't hold back, don't hold back
Won't feel the times you had
I can't touch your precious past
But I'll live, I'll live, I'll live
I'll live those days tonight
You claim your history
Is beyond a man like me
But I'll live, I'll live, I'll live
I'll live those days tonight
Face the ghost that keeps me on the ground
Take the best of what they talk about
In the cold outside we're waiting
To embrace the night to pull it close
Gonna feel the love you had
Don't hold back, don't hold back, don't hold back
Don't hold back, don't hold back, don't hold back
Won't feel the times you had
I can't touch your precious past
But I'll live and I'll live, and I'll live
I'll live those days tonight
You claim your history
Is beyond a man like me
But I'll live, I'll live and I'll live
I'll live those days tonight
And I'll live, I'll live, I'll live
And I'll live, I'll live, I'll live
And I'll live, I'll live, I'll live
And I'll live and I'll live, I'll live
I live those days, live those dreams like they're all mine
I hold them close inside
I live those days, live those dreams like they're all mine
Won't let them hold me back
I live those days, live those dreams like they're all mine
I hold them close inside

I live those days, live those dreams like they're all mine
Won't let them hold me back
Won't feel the times you had
I can't touch your precious past
But I'll live and I'll live and I'll live
I'll live those days tonight
You claim your history
Is beyond a man like me
But I'll live and I'll live, and I'll live
I'll live those days tonight
Live those days tonight
Live those days tonight
Live those days tonight
I'll live those days tonight
Live those days tonight
Live those days tonight
Live those days tonight
I'll live those days tonight
Live those days tonight
Live those days tonight
Live those days tonight
I'll live those days tonight
Live those days tonight
Live those days tonight
Live those days tonight
I'll live those days tonight
