

Dance

Lemar

From the moment I saw you
I thought you were something out of a story book
And I told my heart that we had to get one look
I remember both me and you, doing what lovers do
Holding hands in the park, making love till after dark
The ooh, the ahh, the ooh
The sound of the birds and the bees bringing me to your knees
Is all I want to do yeah
Dance, dance, dance
Dance, dance, dance
Makes me wanna dance I just want to dance with u
I just want to roll with u
I just want to be the one that really gets to know u
I don't care and I don't mind
I will spend my whole lifetime
If this is what it takes for me to hold u down and make u mine
On a day spent like the first
Taking us right back to the birth of our love
Seems to me as if I will never get enough
Thinking about the way that we first kissed
It was a night like this
We stayed together every day ever since
The ooh, the ahh, the ooh
The sound of the birds and the bees bringing me to your knees
Is all I want to do yeah
Dance, dance, dance
Dance, dance, dance
Makes me wanna dance I just want to dance with u
I just want to roll with u
I just want to be the one that really gets to know u
I don't care and I don't mind
I will spend my whole lifetime
If this is what it takes for me to hold u down and make u mine
I just want to dance with u
I just want to roll with u
I just want to be the one that really gets to know u
I don't care and I don't mind
I will spend my whole lifetime
If this is what it takes for me to hold u down and make u mine
I just want to dance with u
I just want to roll with u
I just want to be the one that really gets to know u
I don't care and I don't mind
I will spend my whole lifetime

If this is what it takes for me to hold u down and make u mine I just want to dance with u

I just want to roll with u

I just want to be the one that really gets to know u

I don't care and I don't mind

I will spend my whole lifetime

If this is what it takes for me to hold u down and make u mine Dance,dance,dance

Dance,dance,dance

Makes me wanna dance Dance,dance,dance

Dance,dance,dance

Makes me wanna dance Dance,dance,dance

Dance,dance,dance

Makes me wanna dance

...
