Something Like That

Kathryn Williams

Saw the future to the past
Saw the silence that is now
Soaked it up in a cloth
Hung it up with old rowsSomething like that
Oh god it's all coming back
Something like that
Something like that
Something like that ...I was calm sure of things
I put on your boots
And started to sing
What a life which one do i choose
You or her her or you
I'll wait a while and have some fun with this
Have some funSomething like that
Oh i'm so coming back
Something like that
Something like that
Something like that ...
Something like that
Oh god it's all coming backTo see things you way
I have to step out of me
And look out of you
Into meSomething like that
Something like that
Something like that ...
