In Your Dreams

Stevie Nicks

Every night you
You tell me everything
Is going to be fine
You calm my nerves when
You hold my hands
Yeah, it feels so fine
Chorus:
I'm just at the other end of your night
I'm always in and out of your light
Right down the middle of all your dreams
In your dreams
Every night you
You love to hear me sing
It's going to be fine
You calm my fear down
It's not a problem
No need to cry
chorus:
I'm just at the other end of your night
I'm always in and out of your light
Right down the middle of all your dreams
In your dreams
Bridge:
Are all those tears necessary
For all that pain that you carry?
You just send those tears away

Come in out of the darkness
It's a beautiful day
chorus:
I'm just at the other end of your night
I'm always in and out of your light
Right down the middle of all your dreams
In your dreams
I'm wishing your wish
I'm wishing my wish
Is going to come true
I'm just a dreamer
A storyteller

It's all about you
Chorus:
I'm just at the other end of your night
I'm always in and out of your light
Right down the middle of all your dreams
In your dreams
I'm just at the other end of your night
I'm always in and out of your light
Right down the middle of all your dreams
In your dreams
In your dreams
Ahhh in your dreams
