

Tag Along

[Samiam](#)

Tag along baby girl close behind tender sweet
Tag along little feet all is well within your world
Don't believe all you hear, never fear, never fear
Shut your mouth tag along She's too young for that
She don't know, don't know
Don't know not yet
Shut your mouth She's too young for that
She don't know, don't know
Don't know not yet
I never even said a word But she can see right through my eyes
Still too young to understand Should you go, should you go there?
Should you go, should you go now?
Everything, everything's alright
Everything, everything's just fine
