

River of Pain

Royal Hunt

I don't believe in tomorrows - you'll never change my point of view
my fears and sorrows running down my spine, I tell you
I watch my people dying, I watch them go - I don't know where
the skies are crying, washing out their blood into the...The river runs away turns red and looks like a vein
the river shows the way away from bloody rainThe Gods of war are calling, I hear their voices in the wind
the sun is falling - another day is gone, another sin
I see the star of sadness is touching bodies on the ground
someday's madness just took my life and turned it upside downThe river of pain - we're all betrayed and sold
the river of pain - my land is dead and cold
the river of pain - when I close my eyes
the river of pain - spirit never diesMy time has come I'm leaving, my mind is tearing me apart
I wanna die believing in common sense and wisdom of my heart
