

They Don't Know About Us

Victoria Duffield

Headlines rumors and lies
Something's always goin' round
Cold eyes, judging our lives
Like they know what going down
They wanna read us like a front page story
Up in our business like they're paparazzi
They think we're just another tabloid crush, In the end; they don't know about us
If they wanna talk, let them talk
If they wanna whisper, then so what
They don't know 'bout us
They don't know 'bout us
They don't know 'bous uh-uh-uh-uh-us
If they wanna hate, let them hate
Cause it don't matter what they say
They don't know 'bout us
They don't know 'bout us
They don't know 'bous uh-uh-uh-uh-us
No sound, truth cutting out
Like a game of Telephone
New found, talk of the town
They don't want to leave us alone
Pay no attention to the "he said, she said"
Yeah, you're the only one I hear in my head
So let 'em think we're a tabloid crush; in the end they don't know about us
If they wanna talk, let them talk
If they wanna whisper, then so what
They don't know 'bout us

They don't know 'bout us
They don't know 'bous uh-uh-uh-uh-us
If they wanna hate, let them hate
Cause it don't matter what they say
They don't know 'bout us
They don't know 'bout us
They don't know 'bous uh-uh-uh-uh-us
They, they, they don't know 'bout us
They don't know about us (x2)
Let them say what they say
Baby, they can talk all night and day-aay

Let them waste their time, rumors ain't never gonna change my mind
Cause when you hold me tight, I know it's worth a fight
They don't know the truth
They don't know it like we do
If they wanna talk, let them talk
If they wanna whisper, then so what
They don't know 'bout us
They don't know 'bout us
They don't know 'bout uh-uh-uh-uh-us
If they wanna hate, let them hate
Cause it don't matter what they say
They don't know 'bout us
They don't know 'bout us
They don't know 'bout uh-uh-uh-uh-us
They don't know 'bout us, (they don't know, they don't know)
They don't know (about us) (x2)
