Beautiful World

Beth Orton

Looks like you're never coming home
Looks like you'll make that road alone
Caught in the headlights of a very mixed up world
Where everything you fear is here
Where your shadow blocks your light
Oh, beautiful world to me
Beautiful world
Doves cried when she tried to fly
When her wings spread she heard their song
Flies to your flame but so hard to see at night
Alone in your dreams
Beautiful world
It's a beautiful world to me
It's a beautiful world
It's a beautiful world to you
Don't let me go outside tonight
Keep me safe within this room
Afraid of what I feel, afraid of what I'll do
Everything I feel is here
Where your shadow blocks the light
One embrace, one embrace
My heart, sometimes
It's a beautiful world
It's a beautiful world to you
