

Too Late

Bobby G.

Contemplating I hold on
I've been waiting far too long
To tell you you're my desire
I can't stop this burning fire I've come too far to wait
I've come too far too late Hook
I've come too far to wait
I've come too far too late 2 Verse
There is something that you do
From the first time I saw you
It's the truth you're my desire
Time to stop put out the fire I've come too far to wait (much too far)
I've come too far too late Hook
I've come too far to wait
I've come too far too late (too far too late, too far too late) Bridge
I don't know what that I should do
I don't want to live life without you
I don't know what that I should do (I've come too far too late)
I've come too far too late (Goodtar Solo) Hook I've come too far to wait
I've come too far too late I've come too far to wait
I've come too far too late I've come too far to wait
I've come too far too late
