Lastdance

Lacrimas Profundere

It was the only sin
To breathe you again
And not to fall apart
And leave youAll the tears on you
All your sadest wishes
For your last dance I
And nothing was trueBut never to be felt
For all the blackest heart
In nothing we drown
And leave youAnd so, and so
We aren't
And look how everything changes,
And how we become, what we never wantedAll I want is you
And everthing you can't do
Pour your tears in me
And never leave meAnd for you
I take everything
But you aren't mine
goodbye
