

In My Heart and On My Mind

Element 101

Sometimes it gets just so hard
To realize what I'm doing
Because I feel like I'm
Sticking out so much but You're still in my heart
And on my mind
You're always there to remind me Sometimes I think that no one
Could ever understand me
But I forget that you've been where I am
Many times You're in my heart
And on my mind
You're always there to remind me Oh my heart can't understand
How my mind can't feel
When memories fade
Are they still real Oh my heart can't understand
How my mind can't feel
When memories fade
Are they still real In my heart
And on my mind
In my heart
And on my mind
In my heart
And on my mind
In my heart
And on my mind
You're always there to remind me
